# SURVEYING & ANALYSIS SERVICES

**At Hydroplan we provide expert surveying services to deliver the important data you need.**

### Surveying services:

- Land surveys
- Bathymetric surveys
- Environmental and condition surveys
- Structural surveys
- Boundary clarifications

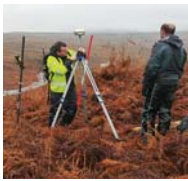

### Analysis services:

- Flood risk assessments
- Compensation flow assessments
- Morphology (fish habitat) studies
- River flow (hydrology) studies
- Hydropower viability assessments

We work for land agents, architects, building developers, country lawyers, estate managers and renewable energy developers across Scotland.

Our staff are qualified, experienced, fully-insured, and are accustomed to working in remote and extreme conditions.

Importantly, your deadline is our deadline, which means you can rely on us for the data you need.

**To book a service please contact our survey team on 01202 886622 or email [info@hydroplan.co.uk](mailto:info@hydroplan.co.uk)**
